Do your Blogs look just like every other Blog? Dear Blogger, With BlogSplash you can spice up your blog post and get them a little more noticed. A friend of mine James coded his own blog and when he did he added the ability to colorize the background of each of his posts. This got him thinking because some of his clients sites with their blog got some great attention when color was added. That is when his brain kicked into High Gear and he decided to make BlogSplash which will add images to your blog post. I also included 10 high quality header images, made by me.. These are not some free header images. You can see example header images and more example blog splash images below.
