Captain Billy is an actual descendant of Merchant Marine Captain Charles Fangman, master of tall ships from 1860 to 1881. As a Merchant Marine captain with over 25 years in the charter trade in the Pacific Northwest and the Caribbean, Bones is now almost making a living on Maui, writing and performing his unique style of maritime music. With his anchor set for a while in Hawaii, he has performed for 15 months at the Pioneer Inn on the waterfront in old Lahina on Maui. The PI is the oldest bar/ hotel in all of Hawaii with real harpoons hanging on the walls and a large classic painting of three naked women. Arrrr! Just the kind of place to hoist a pint and recall the sad and wonderous days of hunting the great Baleen whale. Billy Bones has performed for U.S. Navy conventions on the mainland, at the Maui County Fair, many years at the Seattle Folklife Festival, boat shows, and in dark musty corners of waterfront bars on mini tours in four countries. SAIL magazine recognizes him as "the Northwest Poet" and has included his music in their "Essential Gear for Sailors" catalog for 7 years. For booking information or to actually sail with him in the Caribbean or Pacific Northwest you can contact him directly at: 1-800-354-8608 captainbillybones.com
