Almost every person in the world would like to have the constitutionally protected freedoms that you have. Using simple and clear language that most high school students can read and understand, this book answers every question about your constitutional freedoms, State powers, and federal government powers; such as: Why should I care about my constitutional freedoms? What freedoms do I have and what limits are there on my freedoms? What powers do governments have over my freedoms and my life? What are the three questions that can individually tell you when a federal law or a federal judicial decision has violated the Constitution? How has government taken away some of my freedoms? How can I take back my freedoms? How can I find out exactly what constitutional powers our federal government has? Is there really such a thing as American Exceptionalism? The answers to all these questions are already written in the U.S. Constitution. With the help of this book, you can find the answers and know that you have found the correct answers.
