

Mp3 Bill Pere - Cityscape

[DOWNLOAD HERE](#)

In the tradition of the great story-song writers like Harry Chapin, this is another great collection of Bill's incredible story-songs, backed up by full band arrangements with acoustic, electric, and midi guitar. 12 MP3 Songs FOLK: Folk Pop, JAZZ: Smooth Jazz Details: When was the last time a song made you feel really intense emotion? In the tradition of the great musical story-tellers like Harry Chapin, *Cityscape*, the follow-up album to Bill's award winning "Crest of a Wave," maintains the level of lyrical craftmanship that Bill has become known for in today's music scene. The songs are character-driven tales about people searching for tenderness in the cold concrete surroundings of contemporary urban America. The tracks are orchestrated with Bill's distinctive full band arrangements featuring 12-string acoustic guitar and Midi guitar, to support the powerful lyrics. The songs run the emotional range, from the highest highs to the lowest lows. Teenage runaways, small time thieves, orphaned children, domestic violence, growing old, feeling isolated, finding love -- all these are portrayed with sensitivity and musical artistry. 12 Tracks, 57 minutes, Lyric Sheet Included! If you like lyrically rich songs that have meaning and emotion, check out Bill other recordings, especially "Crest of a Wave" and "High School My School" By the way, proceeds from the sale of this CD (and all of Bill's CD's) go to help Hunger Relief and family service agencies, through Local United Network to Combat Hunger (LUNCH).
