

## Automated Forex Trading System Ea Advisor (robot)

[DOWNLOAD HERE](#)

ForexAutoPilot advisor is based on over 20 modern forex indicators such as Alligator, Fractals, DeMarker, Williams Percent Rate. The system detects good trend, confirms it using internal indicators and opens the trades to take maximum profit for you. The system does not use fixed stoploss parameter to prevent getting losing trades. ForexAutoPilot advisor monitors each open trade carefully and closes it if reaching takeprofit limit when the trade is successful. If the trade is loosing ForexAutoPilot advisor closes it using signals of its internal indicators to prevent drawdowns. Currency and TimeFrame ForexAutoPilot advisor is optimized and can work only on EUROUSD pair on 1M (1 minute) timeframe.
