Gaudy Folk Rock 11 MP3 Songs FOLK: Modernistic Folk, Sway Folk Rock Star of Love Songs Details: The songs by Anglo Tango were chosen from a body of original songs by composer, Frank Wood which keep down in the hundreds. The selections present a style which is among the least recognizable as a major musical genre. The songs are an anthology of material for the most part composed to defy category. Originality is the aim- original style, melodies, lyrics and even category. Not to be jazz or rock or country or any other recognizable musical style has been Wood's consistent premise for writing songs through the years. To defy category is the ultimate originality and is not a new phenomenon. All categories have their ground-breakers. In the music of Anglo Tango, each new song is meant to be a shocking surprise, yet within each project runs an aesthetic consistency of mood and ideology.
