

## Mp3 Lisa Bastoni - Gather Round

Warm, witty, wordy and 100% acoustic, *Gather Round* is a fine batch of songs from one of Boston's favorite underground singer-songwriters. 11 MP3 Songs FOLK: Gentle, FOLK: Modern Folk Details: This is Lisa's first album of original songs, recorded in her living room on a shoe-string budget in February 2002. At the time, Lisa's "day job" was playing for tips on Boston subway platforms, and having a CD to sell helped her tips jump from singles to tens. This humble little-album-that-could sold remarkably well; it won her a coveted spot at the 2002 Falcon Ridge Folk Festival Emerging Artist Showcase and has been played on folk radio stations around New England. *Gather Round* is now in its second (and final) printing.
