

Web Dictate

[DOWNLOAD HERE](#)

Web Dictate is a dictation system that lets you record, edit and manage dictation over the internet. You, and other users, log into a server running Web Dictate to record dictation with any ordinary web browser. You can save or edit your dictations online. When you have finished recording just click send and the recording will be sent to your typist immediately by email. Web Dictate specifications: Download Size: 575 KB Other System Requirements: Broadband Internet Connection 64kbps or above.
