Lyrical driven, acoustic folk-rock girl jam. Singer/songwriter with savvy vocals and powerful story weaving. Some jazzy tunes, some classical, some folk, pop, and rock, all on one CD, you'll love the whole collection. 12 MP3 Songs FOLK: Power-folk, ROCK: Acoustic Details: Smiling is what Niccole does best. Regardless of the difficult times life can hand us; this album puts her tenacious personality traits right out there. Raised in New Jersey, yet a mountain girl at heart, she speaks to the core in you with striking honesty rarely matched. "Smile" contains a unique difference from her first album yet still holds true to the essence of what good songs are all about. A resonate Cello takes a solo scene on the title track and makes your heart melt. A bouncy electric flare makes you wish you had a tail to wag on "Diggy Dog". A live jazz track of "Love like Ours" paints an intimate picture of a perfect love. There are many stories in 13 songs that all come weilding out. It's fun to think about or just shut off the old "think-cap" and let your foot do the tapping. You can log on to Niccole's web site to know more about her, see pictures, contact her, make purchases or see where she's playing. She really is a dynamic individual with her heart in the right place. Lots of people love this woman, and if they don't know her, they get to know her because she sings what she is...and it's beautiful!
