

Mp3 Aaron Espe - My Whole Life

[DOWNLOAD HERE](#)

A deliberate mix of folk and pop; lyrically deep and acoustical yet with attention-getting melodies. 11 MP3 Songs FOLK: Folk Pop, POP: Delicate My Unanimous Life Songs Details: "[His] music is guileless and dead on target A real breath of fresh air in an ocean of superficiality -- with songwriting that reveals the insight of a skilled poet twice his age." ---- Ron Craighead, KGLT Radio, Bozeman, MT "There's a special magic to those albums that enchant and hook you gently, quietly, stealthily, almost without your knowing. Aaron Espe's album, "My Unanimous Life" is just such an album. You might be going about your routine when you hit play but gradually, you'll find yourself turning away from your business to listen a bit more deeply; you'll notice a shift in your breathing, a slowing of your pulse and a need to turn up the volume and pause. As easily as the sun rises and falls, his music inhales and exhales, ebbs and flows and satisfies some mysterious, hungry need in the soul. Hearing his music is like the experience of not realizing how thirsty you are until you start drinking, and then suddenly, you feel like parched, cracking soil aching for moisture, drinking it in with a sigh, with ecstatic desperation for more. Whatever it is in his music that fulfills such an intense, concealed need, there's no doubt that this is some of the most gorgeous male folk you'll hear." ---- CD Baby "... a depth of lyrics and musicality of guitar playing as anyone on the circuits -- if not more so." ---- Chris Cunningham, Singer/Songwriter and member of the folk duo, Storyhill.
