----- "Helps Prevent Stealing Of Commissions And Increases Clicks Through Rates As Links Appear To Be Internal To Your Domain" Dear Online Marketer, The sad fact is people do not like to click on affiliate style links... Even worse, is the fact that many people will bypass your affiliate links by going directly to the product website. Then you have the commission thieves that rob you of your hard work... You can now prevent this with a very simple Wordpress plugin! Introducing "Wordpress Covert Linkz! Installing is a snap and using is dead drop simple: - Enter your link title keyword - Enter ANY link under the Affiliate Link Column - Click Save Links! A cool thing about the plugin, it makes any link appear as if it is part of YOUR domain! That is all there is to using the "Wordpress Covert Linkz" plugin. Once you have the link saved, you will be able to use it "anywhere", on your blog, forum signatures, or any place that you want to have covert links. Afraid it is too complicated for you? Fear not, I have a simple video showing you everything you need to do. It could not be any easier for you to start cloaking your links! Even better is this plugin includes "Master Resell Rights". This means that you are not only getting a very useful tool, you can sell it and keep 100 of the profits. Included is a copy of a professionally designed sales page with complete salespitch and graphics.
