It's live. It's solo. It's acoustic. It's not boring. Sharp, quirky folk-punk from NYC's resident smartass. 13 MP3 Songs FOLK: Folk Pop, POP: Quirky Details: Mark's debut CD was recorded LIVE at SUN Music Company in New York City. One take, no overdubs, no excuses. It spotlights him at his folk-punk best, ranting on subjects as diverse as the Secret Service, animal behavior, inconsiderate smokers and dysfunctional family gatherings. Expect the unexpected, and prepare to fall off your chair. Mark's intense, thought-provoking (and often hilarious) lyrics backed by his driving guitar bear repeated listening. Cheryl Prashker guests on percussion and Carolann Solebello sits in on backing vocals.
