Forex InfoBot analyzes the market instead of blindly following the price. You won't need to possess any special knowledge simply install the program, set the mail notification for your comfort and go about your normal daily business. When Forex InfoBOT defines the best possible moment to open an order, it will immediately notify you. Never before has manual trading been so simple and comfortable! 59 pips of daily profit During our testing phase, our InfoBOT showed a daily average of 59 pips. Is it too much or too little? Many will say, that it's infinitesimally small number. And it's no doubt, those, who would claim that are newcomers to Forex. Each and every serious trader, who has an extended experience, will tell you that the main mantra on Forex is NOT TO LOSE.
