In light of this, Anita migrated to the United States shortly after she was awarded Best Popular Vocalist in the 1986 St. Vincent and the Grenadines National Music Festival. Since then, Anita has climbed the ladder of success and is still climbing, as she refuses to allow success or failure to prevent her from receiving her God-given inheritance. Anita firmly believes that a successful life and ministry emanates solely out of relationship with God, and therefore measures her success according to the depth and degree of her relationship with the Lord. With this spiritual awareness, Anita seeks diligently to glean information and insights about herself and her Creator by maintaining a teachable posture with the understanding that learning is an unending process. This mindset of the need to acquire knowledge has allowed Anita to successfully graduate the King's University, Los Angeles, California with a degree in Practical Theology and one in Christian Ministries.

She was also graduated with honors, upon which she received the Delta Epsilon Chi award, in recognition of her outstanding and excellent academic performance, and is thereby given the status of Honorary Membership by the Honor Society of Accrediting Association of Bible Colleges in the United States of America.
