

Mp3 Archetribes - Waterworks

Modern world music with an electronic and sometimes ambient influence. 17 MP3 Songs WORLD: World Fusion, ELECTRONIC: Ambient Details: Waterworks is a two CD set. The first CD is percussion-oriented, lively, more of what you might call world-fusion. The second CD is ambient. With Earthtones, I kept the dynamic range in a fairly safe zone. By splitting Waterworks, the first CD can be more adventurous, and the second CD can be more consistent. Gunnard Doboze returns on duduk and clarinet. Billy Miller, who made an appearance on Blue Forest Mass, contributes flute, percussion and a sometimes Celtic influence. Phillip Lampe and Grant Smith of Spiral 7 contribute touch guitar/sitar and percussion, respectively. I put everything together and add Warr Guitar, guitar, keyboards, voice and percussion.
