# Easy Forex Trend Trading Manual System

[DOWNLOAD HERE](#)

The Easy Forex Color Coded Trend Trading Manual System is an innovative way of being able to pull pips from your trading account without spending hours in front of your pc. Color Coded trading is a new method of trading, but doing it successfully without the right suite of indicators is not easy. Being able to identify entry and exit points is the key to success...and I provide you the perfect suite of indicators that compliment each other and make this a fun and easy way to trade! This trading system is a very simple basic manual system that is for the 15 minute or 1 to 4 hour charts. You can use it on multiple currency pairs with the special MT4 indicators that I give you, already loaded onto a Color Coded template. I removed the price line totally and you trade according to COLOR ONLY What does this mean for you? getting up early to trade or staying up late to trade will be a joy, not a grind the suite of indicators that work together are so pleasing and soothing and will actually relax you getting in and out of trades will be

like childs play, its so easy with the colors matching making money can be fun, as it should be becoming financially independent is finally possible for you you could start making money this week! Works on : 15 min, 1 hr and 4 hr Indicators : _nonlagdot.ex4 AMABands.ex4 B-Clock Silver.ex4 Bid-Ask Big Price.ex4 Chaotic Trajectory.ex4 Heiken_Ashi_Smoothed_Alert.ex4 StochasticRSI_Oscillator- MT4.ex4 SuperTrend.ex4 The G(roovy) Spot.ex4 trend.ex4 Trendchannel.ex4 TrendWave.ex4 Vertical Line-moves with price.ex4
