"Magic Button - The Lazy Man's Way To Internet Marketing Success" From:Marinus Dear Internet Marketer, I have absolutely no idea about what you're selling or promoting online. . . . It could be ebooks, software programs, memberships, your newsletter or an affiliate program. Whatever it is I will guarantee you one thing. If you use Magic Button software on your site you'll sell more of it, you'll get more clickthroughs and you'll generate more sign ups than you've ever done before. I'm that confident! I can't tell you how impressed I am with your new "Magic Button". The button is very unobtrusive while still commanding attention. The "200 button templates" bonus makes the deal too good to pass up! (You really should be charging extra for it!) I look forward to installing your button on my websites. You have a winner on your hands here! Dennis Hardy Founder SoftwarePak SoftwarePak.com "Getting attention for an offer is vital to a good response rate. Your Magic Button certainly does that- it's a winner!" John Payne Publisher Web Marketing Ezine WebMarketingEzine I have been selling a Youth Football Coach instructional manual for 3 months. My average sale used to be one sale in every 3-4 days. I changed my site and installed the Magic Button and I received 3 sales in one day! One of - if not the best purchases I ever made for getting sales of my niche product. Keep up the good work. Lee Kennedy Coach-Kennedy.com When I first saw Magic-Button I knew I must have it. I wasn't sure why, I just thought it was cool. When I ordered and created my first Magic-Button within the first five minutes, the inspiration came. Not only could I use it for gaining new subscribers to my newsletter, I could use it in virtually any product sales page and increase my conversion ratios. I put it on all my web pages with different affiliate links and product specials from my own store. It has added flare and professionalism to my site. Don't miss this one! Sean Walker, ePlex New Business Solutions eplex.biz "After putting a Magic Button on my web page a few days ago, I have had so many more sales than usual! About 30 more orders! There is

something very tempting about clicking on these buttons! They CANNOT be resisted! You just "have to" click on them! Your software is so easy to use it took just seconds to create a really nice button.

Truthfully, I spent half the afternoon just "playing" with the program because it was so much fun. I love the free templates that come with it too! A Magic Button is so much better than a regular irritating popup ad. And has better sales conversion. Thanks again! I am going to more buttons on my other web sites.

Lynnette Monrean home-business-reports.com Would you like the power to practically force your web site's visitors into clicking the links or visiting the pages you wanted them to. Can you imagine just how much additional revenue you could generate? Getting clickthroughs to the links that matter is what every web site owner wants needs to generate income online. Well That Power is Yours! With Magic Button you can wield that power in just three mouse clicks. Okay right now you may be wondering what the heck's a Magic Button and what does Magic Button software actually do. Magic Button allows you to generate highly customisable, attention grabbing and unblockable links. Text or images or both - you choose. You can see an example on this page promoting my newsletter. It hasn't been blocked like a PopUp and it's not 'In Yer Face' annoying like on of those floating ads. (Don't you just close them down anyway?) ++ reseller ad your own created code to this page to send people to your newsletter - the original example code has been removed. The Magic Button simply follows you down the page, but you can make them move, you can change the position on the screen and you can use different images in a whole range of different sizes. The more eye catching, hypnotic, tempting your offer (however you want to call it) the more it'll be clicked. You can use it for absolutely any link you like - what if I was to make this an order link - The moment a prospect had got to the point in my sales copy and is ready to order - the order now button is at hand. Here are just a few of the many successful uses for Magic Button: If you promote an affiliate program you need people to click your links and visit the affiliate site so that you earn commissions. If you run a newsletter or eZine you need people to sign up for it and preferably with their primary email address. If you offer free ebooks or ecourses you need visitors to download them. If you sell your own products your aim is to get people to click through to your 'order' page the moment they're sold on your product. It goes without saying - to do any of these things requires some level of experience. You need a good presentation, your web site must look professional, you need enticing sales copy and you must command action. . . . But what if you could acheive similar results in just three or four mouse clicks? Once you own Magic Button, you'll have the ability to get visitors clicking the links you want them

to - when you want them to. Because you'll have the power to convert your traffic far better you'll be spending less time doing the tasks you hate and more time concentrating on your business and your products. Just picture yourself not having to spend hours each week buried in search engine promotion, traffic exchanges, and banner advertising. You'll can be making more money because you'll be spending less time driving traffic to your web site in the hope that out of the thousands coming only 0.01 actually buy anything from your affiliate links.
