Website´s Menu Tree

[DOWNLOAD HERE](#)

Does your website need a menu or site map? The search engines think so! In fact, having this additional indexing page allows the search engines to quickly grab ALL of your links. Don't leave it to chance! Menu Tree allows you to EASILY change names and links in the Tree's html. Paste the html into your page and upload the files. Easy 'readme' instructions included. Make the most of the FREE traffic that search engines generate! If you don't, someone else will!
