PipRipper EA Package Trading the popular EURUSD, GBPUSD, USDCHF, USDJPY, and EURJPY

currency pairs each on a 1Hour (60 minute) time frame, backtested over a 5 year period, produced 6292 trades trading only during specific times of day. The results were 82.02 Winning trades, and when you download the PipRipper system youll see the exact settings and rules that produced these results, outlined in detail! And this is just ONE of ENDLESS possible combinations Well ALSO give you the exact settings we used to produce results like these: AUDUSD (Aust Dollar / US Dollar) 89.86 Winning Trades* CHFJPY (Swiss Franc / Japanese Yen) 90.74 Winning Trades* EURCHF (Euro / Swiss Franc) 88.22 Winning Trades* EURUSD (Euro / US Dollar) 90.21 Winning Trades* GBPNZD (British Pound / New Zealand \$) 91.07 Winning Trades* USDDKK (US Dollar / Danish Krone) 89.90 Winning Trades* USDJPY (US Dollar / Japanese Yen) 81.85 Winning Trades* and many more PipRipper on more than one currency pair at a time, using different settings for each pair to get the optimal result from each one, can help to create an even more incredible equity curve and FAR more profit than trading one Forex pair at a time! This is an example of the power of diversified trading with the PipRipper system, although trading only one pair at a time can be pretty darn good too Package contains: PipRipper Indicator PipRipper Expert PipRipper-Installation-PDF-Robot.txt Pipripper.pdf PipRipperStrategy Parameters.pdf PDF Password.pdf
