Forex Excellent Trading Robot Expert Advisor EA Black Belt EA If you are too honest to steal but too lazy to work hard (the definition of a forex trader given by Bill Williams himself), you might be interested in what I have to offer. Black Belt EA is an expert advisor also known as forex robot designed for Meta Trader 4 platform which complies to the following rules: High frequency trader, NO grid, NO martingale Works on M30 timeframe, EURUSD only. EURUSD is the most traded pair in the world so pattern prediction is more accurate. It opens positions based only on price action only, so broker sensitivity is highly reduced. It opens multiple positions in the market directions thus making hundreds of pips on a single session. Volatility based Stop Loss and Take Profit. Spread does not really matter, but its not recommended to use a broker with a spread higher than 2. Works on all brokers, but its recommended to run it on a 5 digits broker, its more accurate. No upsells, free lifetime support. Trades all account types, you need only \$500 to start trading. Advanced money management system. Full NFA and FIFO compliant. Works for ECN and STP brokers. It trades around the clock, during all trading sessions. please

NOTE: if you do not have winrar to open the file you can get it from here rarlab.com/download.htm or for winzip download.cnet.com/WinZip/3000-2250_4-10003164.html thanks feedback will be appericiated
