Details: Broken Furniture, the breakout album from Jayson Bales, brings a fresh mix of rock, folk with a splash of country to the Americana music scene. Already known for his thoughtful and award winning lyrics, Jayson teamed up with mega-producer Rich Brotherton of Robert Earl Keen fame, to create a sonic gem that appeals to music fans across genre lines. With his touring band, The Big Band, and special guest stars like Lilith Fair hero Trish Murphy, and studio rockers Riley Osbourn and Scrappy Jud Newcomb, Jayson is getting notice in the national media and on national radio stations all over the country. Mario Tarradell of The Dallas Morning News says, "Broken Furniture's 10 songs burst out of the speakers, showcasing stellar musicianship from Mr. Bales. This album deserves the attention. It's an album that leaves you hungry for the next one." Tom Geddie of Buddy Music Magazine says, "Bales has worked hard at his craft. His country-based-but-twangless story songs-sometimes melancholy, sometimes rocking-are solid too. He deserves a big audience." Belo National News Networks say, "Folk-rock has a promising new voice in Dallas. Singer-songwriter Jayson Bales merges pensive lyrics, plenty of catchy hooks and an airy, energetic and organic sound." Jayson Bales was winner of the 2003 Woody Guthrie Songwriter's Award.
