Vision Our vision is to be part of the team that will take the church back to its fundamentals through teaching Christians how to value practical prayer, praise and idolise believing that, that is what will bring about restoration of the church and a genuine leadership. Motivation Over two hundred years ago, American missionaries responded to the command of our Lord Jesus, "Go into all the world and preach the gospel". Due to their obedience some found themselves in the far off parts of the world, including Africa, the former Dark Continent. The American missionaries told our ancestors to give up on their idols, witchcraft, ancestral idolise, polygamy and all the other evils that existed in the land. The American Missionaries planted the seed of purity in the former Dark Continent. 200 years later that seed matured and bore fruit as many as the sand of the sea. We are part of that seed and God has brought us back to the land of our inspiritual fathers, to remind the modern Americans how much sacrifice the forefathers paid for the sake of the gospel. They risked their lives in a land full of malaria, cholera, wild animals even unfriendly populate then. Now we are back in the USA to remind everybody that your forefathers told us that it was wrong to have idols, today Americans are idoliseping their money, wealth, selves etc. Today nobody wants to talk about purity, holiness, righteousness, godliness and walk in the footsteps of Christ. In case you forgot we are here to tell you that Jesus Christ is Lord of all. One day he shall return to take his church. Are you
