

The screenshot shows the 'Font Management System' application window. The top menu bar includes File, Edit, View, Font, Tools, and Help. Below it is a toolbar with icons for installed fonts, browsing, worksets, collections, font properties, sample text, temporary activation, installation, uninstallation, and printing. A status bar at the bottom displays the date (7/16/2009), time (10:45:44 AM), user name (SCRL BBS), total number of fonts (259), the current font (Bello), and the active page (22). The main area is divided into two panes. The left pane, titled 'File Name', lists various fonts such as Arial, Arial Narrow, Arial Rounded MT Bold, etc., along with their locations (all pointing to C:\Users\Owner\Desktop\K0000). The right pane, titled 'Character Table', displays a grid of characters for the selected font, 'Bello'. The characters shown are: Row 1: 4, 5, 6, 7, 8, 9; Row 2: C, D, E, F, G, H; Row 3: R, S, T, U, V, W; Row 4: a, b, c, d, e, f; Row 5: p, q, r, s, t, u. Below the character table is a 'Sample Text' section where the text 'The quick brown' is displayed in the Bello script font. At the very bottom, there are tabs for 'Font Properties' and 'Sample Text', with 'Sample Text' currently selected.
