Slamgrass -- rockin songs with 'grass instruments 12 MP3 Songs ROCK: Acoustic, ROCK: Americana

Details: If its down home, s@#!kicking fast picking that you like then Blind Corn Liquor Pickers should whet your appetite (or maybe I should say quench your thirst). Since forming in 2002, this quartet has played plenty of bars, clubs and festivals in the Kentucky area. Their self-titled debut album is a spirited effort that finds them taking traditional picking and mixing it up with an energetic jam-grass sensibility that's steeped in a good-time vibe. They not only play remarkably well but they've got some great original songs such as "Field Cred" "Europe on 15 Bucks a Day" and "Post Office Blues." They also offer a nod to traditional sounds with covers of "Don't Let Your Deal Go Down" and "Sittin' On Top of the World." ...It's honest, fun and foot stomping!
