Solo, multi-instrumentalist, passionate pop artist with distinct vocals and lyrics. 13 MP3 Songs POP: Today's Top 40, EASY LISTENING: Soft Rock Details: I was born and raised in New Hampshire and still live there today. I started taking piano lessons at age 5. I soon realized I had an ear for music. I also started playing other instruments, guitar, bass, and drums. By the time I was 13, I was writing my own songs. I began recording on a 4 track. I thought it was great that I could record each instrument separately on a different track and then put it all together in the end. I loved recording so much that I soon bought a 12 track digital recorder. By the time I was 15, I already had songs that I wrote performed and recorded. I now record on a Mac computer program called garage band. I played in several Rock Bands in High School. And soon after graduation, I decided to go to The New England Institute of Arts and Communications, in Boston, Mass, for recording engineering. I soon realized I didn't want to record other peoples music, I wanted the world to hear my music. Since then, Ive released two albums. The first being Barricades in 2003 and the second Harmony in 2005. I am currently writing songs and playing gigs as much as possible. I think my music is enjoyable for all ages and many can relate to the songs. Ive enjoyed playing music my whole life. I feel like every time I pick up a guitar or sit at a piano, something great is just waiting to be discovered. To learn more about me and my music please go to chriscartier.com.
