Folk rock inspired music by a songwriter with a different perspective on life. Catchy tunes that flow with a positive lift (even the sad ones.) A collection of moods that make you want to sing along. 11 MP3 Songs
FOLK: Folk Pop, COUNTRY: Country Blues Details: Gary Ward is a singer/songwriter from West Virginia who is now residing in Texas. He started in the music business playing in a popular WV band "Bitter Root" and working as an announcer at a local radio station. Then he took a hiatus from the music to work the "real job" while raising a family. Now that the kids are grown and the dog died, he and Sandy (wife) have started songwriting in earnest. This album is a collection of eleven of the songs written by Gary and Sandy Ward. All songs were recorded with a feel for keeping the live performance. It is our hopes that you enjoy this album and have the opportunity to come to one of our live performances. To reach Gary please send email to: sonicmisfit@earthlink.net
