A Little Bit New Country - A Little Bit Pop 7 MP3 Songs POP: Today's Top 40, POP: 90's Pop Details: We are Glenn-N-Glenn Singers/Songwriters, Brothers John and George Glenn. We are from a musical family, and music has always been an important part of our life. We enjoy writing songs and putting music to them. Most of our life we have been singing and playing our instruments for ourselves or performing at different places. We always felt the need to write our own material so the last few years that's just what we been doing. We truly believe our music will touch your life as it has for so many others. We write from the heart and touch on your feelings. We have a construction company and we love vintage cars. We like restoring them even more but there's no better satisfaction then getting together and doing our music. We get our inspiration for writing our songs from every day people's experiences, our own ordeals and the ups and downs, loves and hurts the world has to offer. So they're really for almost any mood a person is in. Hope you enjoy them as much as we enjoy writing and singing them. ENJOY!
