Details: Karen Margaryan was born on June 10, 1978 in Armenia. At the young age of seven, he discovered his love for music. His first steps as a musician were taken with violin in hand and continued, in step, in front of the piano. Today, Karen Margaryan is one of the Armenian music industry's most acclaimed and sought after composers and arrangers. His work can be heard in the music of artists such as Elvina, Arman Aghajanyan, Nune, Jivan Gasparyan and Cascade Folk Trio. With this album, Karen presents his solo efforts as a composer/arranger. He believes that today's spirit is derived from the depth of our past to create our future. "My language is my music, my means of communication. It's the only way I can tell my story about the one thousand colors of my homeland."
