Gatekeeper's Lunch Hour Songs Details: Check me out on Myspace at [myspace.com/infinale](http://myspace.com/infinale) for better quality samples of my songs than the streams on this site. I am an artist, lyricist, song writer, beat master, and sound designer. I love many different types of music. Music is in my blood. When I was younger I used to play video games such as Metroid and Final Fantasy all of which are various forms of "electronica" and "arcade music". As I got older I was introduced to progressive rock music such as Pink Floyd, who influenced my music greatly. Gatekeeper's Lunch Hour is positive, upbeat, and chill. It can take you away from your everyday surroundings to "Snow Cap Mountains" track 5 to "Drifting the Overcast Sky" track 16. My goal is to connect with you. If after listening to my tracks you somehow find yourself smiling, more relaxed, feeling good, and positive then I know I have accomplished something, and we have connected. I also make Hip Hop music under the artist name Beyond Z and have an album called "The Black Hole" available here on CD Baby. Thank you for listening.
