Next generation, original southern reality rap, dis boy is off da chain, he can rap his ass off and he's responsible fa' his own production which consists of nuttin' but flamin' hot beatz, so don't sleep on dis 1 man band and add dis 2 yo' collection pimp 11 MP3 Songs HIP HOP/RAP: Rap, HIP HOP/RAP: Southern Style Details: Skyhy, one of the founders and CEOs of ChinkyEyed Records was born in Texas and moved to Florida (Which is his home), as a child, he moved to Germany (his mother is a German Gypsy) but due to his mothers heavy alcoholism she couldn't take care of any of her children like needed, and sent him to live with his careless and strict father who barely knew his own son. His father only made situations worst and had no knowlege of how to be a real father to a son he never really gave a damn about in da past anyway, so he kicked his oldest son out at the age of 15. Since then Skyhy has been hustlin' to survive and tryin' to stay out of jail and focused in this cold world where they don't give a damn about a young minority(frum Louisiana to Florida all da way 2 da westcoast), he's been perfecting his production skills and is determined to be a ghetto superstar no matter what. It looks like his talent, ambition, and natural glow that stands out, might get him where he needs to be in this industry. Skyhy does his own production and has incredible talent to come up with touching and realistic stories about his life in rhymes; u can feel the sincerity in every word. Check Out: Skyhy Undaground (1st Tyme Cumin') And you will understand exactly what Skyhy represents. Skyhy does not consider this his first album but just a sample of his movement and what he is trying to do with his partner, the other half of ChinkyEyed Records; Dinero, so if u a real-trill person tune in NOW!or never if u ain't!!!
