A GUMBO of Dirty South, Crunk, West Coast, Mid-West flava, with pinch of R&B, and a squeeze of tight production. 18 MP3 Songs HIP HOP/RAP: Southern Style, URBAN/R&B: R&B Rap mix Details: The Group Unknown This is no ordinary group, of course the name "UNKNOWN" tells it all. The group was originally formed by Lawae' and given the name "UNKNOWN" for a simple reason: Anyone witnessing "The Group UNKNOWN" in action would see the persona of a system that's destined for greatness, an array of versatile new artists, and simply put- they would wonder where they came from. With their diverse, original, and uniquely individual styles, it's safe to say that this is one well polished all around group. Ranging from Rap, R&B, Reggae, and Soul music-recognition and acknowledgement will be nationally granted in due time. They've headlined with many artists including Mike Jones, Papa Reu, Slim Thug and ESG just to name a few. Each member writes and performs with no limitations (rap along w/ r&b and reggae). Labeled by his peers and witnesses as one of the coldest producers ever, Lawae', has a unique refreshing sound that enables "The Group Unknown" to stamp the industry with a signature sound compared to no other group to date. His influences include but are not limited to Dr. Dre, Manny Fresh, Timbaland, R. Kelly and of course himself. With one of the hardest female rappers ever, Misery, a talented versatile writer, stylist and performer, is sure to grab the attention of all rap enthusiasts with her powerful yet confident delivery. D. Dance who's musical roots started in church, delivers the soulful ingredient to their "Gumbo." He also goes by the name 2Faced because he's not only a soulful singer, but also a unique rapper with his own eccentric style. Together this group have won 1st place in many talent shows, along with trophy's and cash money. They've also performed at many clubs, civic centers, and video shows promoting their first masterpiece/classic "VENT IT OUT." Destined to succeed, they've "collabed" and recorded 3 full albums to date (and still recording), shot 2 videos (airing the summer of

'05), and hit the streets hard with guerilla promoting tactics. It's not everyday that you'll find a group who consistently generate hits with their bangin tracks and lyrical skills. This is one group who is blessed in every area musically, and for the love of great music, gives 200 in everything they do. Just like "All Lawae' Productions, " their sound is like Gumbo- Real Musical Gumbo. Mixed well, always hot, good to the last track, and satisfying!!Please feel free to click on the link below and leave us some feedback.
