"Darkness has a softer side she likes to show to balance her equations" - Cave Radio 6 MP3 Songs in this album (34:07) ! Related styles: ELECTRONIC: Electronica, ELECTRONIC: Experimental Details: Universal Hall Pass returns with a six song EP entitled Subtle Things. This is a collaboration between Melissa R. Kaplan and former Splashdown band mate Kasson Crooker also known as Symbion Project and the Duke of the popular synthpop trio Freezepop. Subtle Things takes a beautifully dark "fantastic planet" tinged journey into a three part story of power and melancholy followed by three Symbion Project remixes from UHP's debut album Mercury. The remixes are cut from the same exotic cloth as the first three original songs to give the entire EP a dark other- worldly atmosphere with beautiful string arrangements, artistic drum programming and hints of Raymond Scott's electronic faery dust.
