of five! :-) ----- White Town is a techno-pop act from the United Kingdom, and is the work of one man,
Jyoti Mishra. Mishra was born in Rourkela, India, in 1966, and has lived in England since the age of three.
White Town is often regarded as a one-hit wonder for its 1997 song "Your Woman" which went to number
one in eight countries. The album it was taken from, 'Women In Technology,' went on to sell more than
260,000 copies in North America Mishra, a straight edger and ex-Marxist often incorporates political
concerns in his songs veiled in terms of personal relationships. Don't Mention the War, an all new album,
is scheduled for release in the fall of 2006 on Mishra's own label, Bzangy Records.
