I was heartbroken by what happened to my daughter. She was molested at 7 years old and raped at 14 . Many years she was emotionally depressed and oppressed by these bad incidents. We both had major struggles to recover from these horror. Many times, I caught my daughter listening to bad lyrics...full of sex and foul languages and violence. it was a major fight to get rid of these albums....the very thing that I was helping her to recover from, it was like rubbing salt to the wound.... my daughter's reason for listening was...ma, everybody else is listening to it...ahhhh, peer pressure. I then just decided to hide those albums from her. But she continued to buy secretly and she had a lot of them, she probably did not notice the ones I hid till today. When I heard these songs, I was and still am deeply hurt in my soul. I grieve for the young children, teens, young adults and even the mature adults who listens to these type of music. I love my daughter very much. I always want the best for her like any other mom would want for their children...I have been praying for God to do something. Then , "The Artist 4 The Word" was born about a year ago and that's me! I have been praying for God to help my lovely daughter become the Woman that God made her to be despite of her sad experiences...and I am praying the same for all girls and women who are encountering the same pain. I am praying that my songs will help them be strengthened and be delivered....and be vibrant again! Today, because of "The Word of God" and our Prayers, and our Obedience...my daughter has two Beautiful and Blessed Girls and has Risen up to be a Woman of GOD and is married to a Rising Man of GOD. GOD has restored her because of her faithful and passionate

heart for our Lord Jesus Christ. I write all my songs and they are anointed! The lyrics are Alive! The lyrics are backed up by the Word of God. They are biblical based on NKJV. My Mission is to Preach the Gospel to each and every human life thru Music. My Goal is for Mankind to learn the Bible thru Music and have fun with it! My heart's desire is to contribute "Greatness" in the music industry. Music should be a Restoration to our Spirit and Healing to our Minds, Bodies and Emotions. Music should add Tenderness to our Hearts. I am hoping that CD baby will help me achieve these. I am hoping that the Listeners Will Love my music and Will Support me for what I stand for. Thank you CD baby staff. Thank you listeners for your support. There is a story behind every song that I write..... The stories will be published soon! You may inquire!
