Melodic acoustic psych pop with lots of harmonies 12 MP3 Songs POP: California Pop, ROCK: Psychedelic Details: We're pleased as punch to announce Rick Gallego's latest masterpiece! He recorded most of it himself, with valuable assistance from Nelson Bragg on percussion and vocals, and Zane Drake on various stringed instruments. The sound this time is a more laid back, acoustic vibe than shown on previous releases, with Rick playing the pedal steel guitar for an added dimension - without losing the melodic/harmonic textures of past recordings. A full drum kit is being replaced this time with the looser percussive sounds of tabla, bongos, shakers, etc. Full of breezy, West Coast-influenced pop and lite psych! The Beach Boy-ish harmonies are a joy! The instrumentation is gorgeous! The songs are top-notch! We could go on and on.... If you like your pop luscious and harmony-filled than this is for you!
