I write and mix music in such a way that you the listener could experience an unforgettable event in each composition. Initially I started composing when I saw how an audiologist with the help of an advanced hearing aid helped a little girl to hear music and speech for the first time in her life. Her eyes suddenly became alive and shiny as if she was asleep for her entire life. Ever since Great Churn is dedicated and committed to a task of bringing the sensation of sound to the hearing impaired. The name Great Churn was picked out of a dictionary by me when I was 10 years old. I'd like to thank legendary musicians Jean Michel Jarre, Tangerine Dream, Yello and Art of Noise for the influence. Thanks to KORG for creating my favorite keyboards. My CD's are made only with professional equipment. I used music industrie's top professional software "Cakewalk Sonar 6 Producer Edition" and Korg keyboards so expect fantastic sound quality experience. You will be amazed by the atmosphere of this compositions once you listen to it on good equipment. Special thanks to Emiel and Stephanie Leonidas. Most of all i'd like to thank my brother who bought me a guitar for my birthday when I was a kid.
