WORLD: Celtic, FOLK: Traditional Folk Details: From Brian Sullivan of Emerald Rose: "I must say, you all have really done an excellent job on this one! I am really impressed for a number of reasons...the music is very good, and your players are working well with each other. I really enjoy the guitar, especially some of the flamenco/Spanish stylings. The fiddle, flutes, keyboards are all very good at enhancing the atmosphere of the songs. I enjoyed the music quite a bit, and it captured well on the cd, but the real kicker were the harmony vocals. You have a nice symmetry in the harmonies, and you achieve that rare quality of blending the two voices into one. I thought your rendition of "Ready for the Storm" was amazing - nice texturing, beautiful harmonies and very tasteful solos on flute and guitar. Excellent! Well done!"
