Details: I was born and raised in E. St. Louis, IL. After I graduated high school, I enlisted in the US Army and served 8 1/2 years of active duty service. During my service in the military, I was fortunate to live in Heidelberg Germany, where I begin recording music and implementing computer technology into my music. In those days I was an Amiga Computer User and my musical software was "Bars Pipes Pro" and "Dr. T's TigerCub." Throughout the years the software for musical composition has evolved and I'm pleased to say that I evolved with it. Today I used various software programs in my digital studio, but I am advocate of (Logic Pro Studio 8, GarageBand 4, and Cakewalk Sonar Producer Edition). My latest project "Dead Flowers" was recorded entirely in Logic Pro 8 Studio and I'm extremely pleased with the final product. I strongly urge you to give this CD your attention. There are 16 amazing tracks and I guarantee that you will not be disappointed, in fact you will be amazed at what you discover. Music is for those who have ears to hear and my job is to make sure that your ears like what they hear.
