Strange electronic music with Central Asian and film score influences 12 MP3 Songs ELECTRONIC: Soundscapes, ROCK: Progressive Rock Details: Robert Devereux is a Pittsburgh based musician. His music is written without any constraints of style. Any elements, from Tuvan throat singing to metal guitar, from folk to techno, have been used in his music. He composed scores for several student films, and his music has been performed at electronic and computer music concerts at Carnegie Mellon University. Fungicide is a collaboration with World Fantasy Award winning author Jeff VanderMeer. It serves as a companion to VanderMeer's book, City of Saints and Madmen. However, familiarity with VanderMeer's writing is not needed to enjoy the music. It can be enjoyed by any fan of strange and dark music. The CD is a beautiful gatefold package with 20 pages text and artwork.
