traditional contemporary R&B. 10 MP3 Songs GOSPEL: Contemporary Gospel, URBAN/R&B: R&B Pop Crossover Details: I was born in Connecticut, the Greater Hartford area. At the age of fourteen; I took an interest in singing "R B", because of the love of music that I had acquired. During my school years, I remembered being asked to lead songs for the plays that were being performed. When I got older, I was asked to sing with various local known singing groups. After getting a taste of singing in public and the cheers from the audience, I knew I had to continue until I was either discovered or just for my enjoyment. About fifteen years there, I was asked to attend a church with a friend. I was asked to give a selection. On that day, it was a feeling that I have never experienced before. Sometime after, God came in and changed my life style. I was able to minister to God's people and to give them something to think about after hearing the words to my songs. Right after, my name got around that I sang now for the Lord; I was asked to sing on programs with well known gospel groups, such as: THE BLIND BOYS; HIGHWAY Q.C.; THE KEY NOTES; THE JACKSON SOUTHERNAIRES; SLIM and the SUPREME ANGELS; DOC McKENZIE; LUTHER BARNES and many other groups throughout Connecticut. This was mostly done during the 1980's. J.P. Production asked me to go with their company right after I organized a group called; Chosen Image; which God named. My group stuck with me for many years. Now I am singing alone without a group, doing my own backups and only owned by God. Now I have someone to produce my material, which his name is Mr. Dennis R. Grady, owns and operates his own production company under the name of "IWGC Productions". Just recently, I ran into my old friend, Mr. Lou Brown, that has been in the public's eye for many years. He also is a big help in what I'm trying to achieve for the Lord and His people. At this present time, I am without a singing contract under anyone.
