Stunning Organ progressions! From Soul, Motown, Blues, Jazz and Rock, thru to House. Midi loops of this standard simply didnt exist.... Until now! Smash Up The Studio launches their brand new range of Midi Packs, with Midi Keys: Organ a superb selection of Organ loops beautifully played and constructed to the highest possible standard. This collection covers all the main genres synonymous with the classic sound of the Hammond organ. Cool Soul loops, Gritty blues riffs, and Tough Heavy Rock progressions are all included here, whilst not forgetting classic House organ styles. The pack contains 40 terrific Midi loops performed by top session keyboardist Steve Burton. Each loop ranges from 4-12 bars in length and every Midi file is labelled with the original tempo. The sounds used to preview some of the riffs in the demonstration track, were created using the amazing EVB3 Tonewheel Organ from Apple Logic Pro 8. But the beauty with Midi, is that you can choose any sound you wish and are free to edit the part to your

own personal requirements. Please note: When playing back these Midi files you may need to switch up or down an octave depending on the sound you are using. MIDI Format 40 Performances 100 Copyright Free
