Singer-songwriter stripped back to the essentials. Acoustic guitar and vocal, nothing gets in the way of the lyric and the melody. 5 MP3 Songs FOLK: Folk Pop, POP: Beatles-pop Details: Brian Baker strips back his singer/songwriter style to reveal what he's all about. Welcome to the new acoustic. 5 great tracks from this master songwriter, accompanied only by his trusty acoustic, upright bass on the groovy late night angst of "Stop the baby crying" and the dulcet tones of his daughter, Ella, on backup vocals. No multi layering, double tracking, trickery or suchlike subterfuge. The first in a series of EP's, with this kind of writing Baker is seriously in the act of becoming a very special songwriter.
