Jazzy, bright, lyrical. 10 MP3 Songs JAZZ: Smooth Jazz, JAZZ: Acid Jazz Details: Harmony, the third release from Fidelity Music, is a collection of 10 original arrangements by composer and studio musician, Charles Z. Williams. The final mix for this project began during the winter of 2003 and concluded in the early spring of 2004. All tracks were recorded at Fidelity Music studio in Columbia, S.C., using our proprietary recording techniques. We hope that our listeners will find this collection of musical arrangements to be as enjoyable as our two previously released CD's; "Around The World" and "Transformation", which have been thoroughly enjoyed by a diverse group of people. We appreciate everyone who has taken time to listen to, understand and enjoy our musical expressions. Love, Peace and Harmony. czwilliams
