Over the years he has lived in all various sections of the city finding his way to the west side where he started his family and his career as a professional comedian, actor and writer. Most people know him as the crazy nut you see at the bowling alley laughing, making jokes or wearing a bathrobe and "doo-rag" to a tournament (you had to be there!), but very few know of his passion for music. A passion so intense that it led him through the grace of God to teach himself to play the drums, the keyboard, the bass and lead guitars, along with a few other instruments. His first album, the cd entitled THE REALIZED DREAMS, in which he is the composer, writer, producer, and arranger, shows the unique and versatile depth of this multi talented artist. Being the type of individual that he is, "DA TIPSTA", as he is sometimes called, also records, engineers, mixes and edits his own productions in his professional home studio, (which he built himself the cheap *&\$#@!) under the name of DISORDERLY ENT. INC.. With a strong belief in God, Reuben truly believes that his talent is a gift from above and is meant to be shared with the world in every way. People have said that he has a style comparable to that of Quincy Jones, but with a new wave twist. You have just got to listen to this exciting new artist.
