Trippy pop/rock with an experimental twist, a la Blur, Bjork, My Bloody Valentine, Radiohead, Stereolab, Supergrass and others. We are also capable of doing strange things to stringed instruments. 24 MP3 Songs POP: British Pop, POP: Quirky Details: With a list of influences including Supergrass, Stereolab, Radiohead, Brian Wilson, the Beatles, My Bloody Valentine, Blur, and Jamiroquai, The Beach Machine are all about sound and mood. However, one listen to the new release, Companion, will reveal a solid background in classic songcraft, featuring catchy hooks and an inimitable, distinctive style. Consisting of recording/performing artists Playamaqui (born Danny Perez, formerly of Supper en Orange) and Lazaro Lazo (formerly of Audio Disturbances, Jennifer Culture, Ms.Americas Trash, Supper en Orange, Gosport, and the Oski Foundation), the Beach Machine offer a unique, stange yet beautiful sound to help usher in the 21st Century - perhaps a bridge between what's happening in contemporary music today and what music will be sounding like in the not-too-distant future.
