Original songs about and inspired by dogs - their adventures, their dreams their lives of snooping around and loving life. 15 MP3 Songs in this album (43:01) ! Related styles: FOLK: Free-folk, KIDS/FAMILY: Sing-Along/Interactive Details: I believe I was a dog in a former life. I see them as special messengers sent to teach us to live for the moment, to love unconditionally and to live and love to our fullest potential. I am constantly amazed at their presence in the moment, their comfort with who they are, their focused purpose in their dog activities (sniffing, marking, chasing, sleeping, dreaming) and their commitment to their calling of being there for their people. These songs are about dog activities and have been inspired by 3 amazing creatures, and their friends they meet at the dog park. They have not been my whole life, but have made my life complete, and I honor them with this recording. May all dogs always be loved and well cared for, and may all humans be blessed by the love of a dog at some point in their lives.
