[DOWNLOAD HERE](#)

Ten uncommonly beautiful electro-acoustic treasures from the Italian duo, Tu m', who forge strange beauty from the orchestral tones of the Magical Mystery Orchestra. 10 MP3 Songs ELECTRONIC: Experimental, CLASSICAL: Contemporary Details: BRILLIANT sonorities gleaming tones, enchanting melodies, scratchy textures grainy surfaces - all born from the Magical Mystery Orchestra, a "secret ensemble" of horns, strings, percussion, piano, and other traditional instrumentation. The compositions of Rossano Polidoro (b.1970) and Emiliano Romanelli (b.1979), together known to the world as Tu m', were first played by the Magical Mystery Orchestra, then digitally reprocessed and edited by the composers. This approach is a departure from much of the previous Tu m' music, with the composers typically approaching laptops directly as the point of composition, here drawing inspiration from the "colors of the acoustic instruments, in their simple and pure sound and in their melodic reiteration in space." Ten uncommonly beautiful electro-acoustic treasures.
