

# Dynamical Systems, Wave-based Computation And Neuro-inspired Robots

[DOWNLOAD HERE](#)

Part I: Foundations of Dynamical Systems and wave based computation for locomotion modeling - T.G. Deliagina: Overview of Motor Systems. Types of Movements: Reflexes,- Rhythmical and Voluntary Movements- T.G. Deliagina: Initiation and Generation of Movements: 1. Central Pattern Generators- 2. Command Systems- T.G. Deliagina: Stabilization of Posture- P. Arena: Locomotion as a Spatial-temporal Phenomenon: Models of the Central Pattern Generator- P. Arena: Design of CPGs via Spatial distributed non linear dynamical systems- P. Arena: Realization of bio-inspired locomotion machines via nonlinear dynamical circuits- B. Webb: Using robots to model biological behaviour- Part II: From sensing toward perception- B. Webb: Spiking neuron controllers for a sound localising robot- B. Webb: Combining several sensorimotor systems: from insects to robot implementations- P. Arena, L. Fortuna, M. Frasca and L. Patane: Sensory Feedback in locomotion control- P. Arena and L. Patane: A looming detector for collision avoidance- P. Arena, L. Fortuna, M. Frasca and L. Patane: Hearing: recognition and localization of sound- P. Arena, D. Lombardo and L. Patane: Perception and robot behavior- Part III: Practical Issues - A. Basile and M. Frasca: Practical Issues of "Dynamical Systems, Wave based Computation and Neuro-Inspired Robots" Introduction- M. Pavone, M. Stich and B. Streibl: Locomotion control of a hexapod by Turing Patterns- P. Brunetto, A. Buscarino and A. Latteri: Visual Control of a Roving Robot based on Turing Patterns- F. Danieli and D. Melita: Wave-based control of a bio-inspired hexapod robot- P. Crucitti and G. Ganci: Cricket phonotaxis: simple Lego implementation- P. Aprile, M. Porez and M. Wrabel: CNN-based control of a robot inspired to snakeboard locomotion- P. Crucitti, G. Dimartino, M. Pavone, C.D. Presti: Cooperative behavior of robots controlled by CNN autowaves EAN/ISBN : 9783211787755 Publisher(s): Springer, Berlin, Springer, Wien Discussed keywords: Dynamisches System, Roboter Format: ePub/PDF Author(s): Maier, Giulio - Salencon, Jean - Schneider, Wilhelm
