Attention: Quickly Eliminate Time and Effort Spent Organizing Content! Save Hours Of Time By Easily Merging A Large Amount Of Content Into A Single Document With Click-Button Ease! Quickly Combine Your Content With A Few Clicks of Your Mouse For Easy Distribution Throughout Your Websites! Here's The Full Range of Benefits You Get: * Quickly and efficiently take your articles or blocks of content and "merge" them into one file. This tool is perfect when you need to combine a lot of content fast! * Have each article or content block automatically separated using a "break token" that's automatically inserted. This keeps your articles organized for distribution inside another tool, such as a website text rotation tool. * Rename the break point token so that it works with whatever additional utility you're using! This solution is perfect no matter what purpose you're using it for. * Choose the input folder (which contains all the .txt articles you want to merge together) and the target folder (where the "master" article is placed after it's created). It's a complete point and click solution! * Save hours of your time you would have otherwise spent copying and pasting! Getting your content put together is now a breeze! Plus, much more!
