Details: "Future Memories" was engineered and designed specifically to be played in conjunction with the shamanic group experiences that AMORAEA facilitates. Amoraea has created a vibrational healing journey in which the didjeridoo carries participants into deep entrancing soul states. The core of the 'journey' is experienced lying down with eyes closed and receiving the vibrations directly played into each chakra. Through ritual invocations, guided visualizations, breathwork, crystal singing bowls and hands-on energy healing, the group is absorbed further into the healing matrix of the didjeridoo and the holographic sensory experience. Future Memories is used by a wide number of healing arts therapists, massage therapists, yoga teachers, and for personal shamanic journeying or deep relaxation. The CD is a 53 minute continuous orchestration designed to keep the listener in trance: it is an attunement for your Higher Self and was designed with subharmonic frequency codes that activate the original 12-Strand DNA Celestial Human Template. The waveform of the CD brings you through deep expansive ambient soulscapes and also builds momentum into rich rhythmic textures. AMORAEA DREAMSEED has been facilitating healing for over six years throughout the United States. Besides his Vibrational Healing Ceremonies, he also offers private sessions incorporating a full spectrum of healing modalities. He has evolved his own techniques of hands-on energy healing from his Reiki Mastership to transmit a multi-dimensional field of light frequencies. Emphasis is on awakening the cellular and genetic memory codes and clearing karmic miasms of the mind/body template. Dreamseed also utilizes crystal healing, aromatherapy, crystal singing bowls, and

guided imagery in his sessions. Among other shamanic tools, Dreamseed uses an ancient healing instrument call the didjeridoo. The didjeridoo has been used ceremonially by the Aborigines of Australia for over 40,000 years as a vehicle to access spiritual realms. The instrument creates a low vibrational tone which resonates into all levels of the body, mind, and soul. When played directly over the body, the vibration penetrates into the cellular structure and harmonizes the body's subtle energy system to bring balance, purification, and heightened flow of the chakras. The pulsing, spiraling sounds emenating from the didjeridoo bring one into a trance state where incredible subconscious work may be achieved on emotional, mental and spiritual levels.
